

## อักษรย่อที่ใช้

Abd. R	=	abdominal reflex
alb	=	albumin
Alk Phos	=	alkaline phosphatase
AP	=	antero-posterior
AJ	=	ankle jerk
ANA	=	anti-nuclear antibody
ANCA	=	anti-neutrophil cytoplasmic antibody
ASO	=	antistreptolysin O
BJ	=	biceps jerk
BS	=	blood sugar
B.S.	=	breath sounds
C	=	cervical cord
CNS	=	central nervous system
CP	=	close pressure
CPC	=	clinicopathologic conference
DF	=	dorsiflexors of feet
DTR	=	deep tendon reflexes
EOM	=	external ocular muscle / movement
ESR	=	erythrocyte sedimentation rate
ext.	=	extensor (s)
FB	=	finger's breadth
FBS	=	fasting blood sugar
FF	=	finger flexion
Flex.	=	flexor (s)
FSH	=	follicle stimulating hormone
GH	=	growth hormone
glob	=	globulin
HF	=	hip flexor
HPF	=	high power field
JJ	=	jaw jerk
JPS	=	joint position sense
JVP	=	jugular venous pressure
KJ	=	knee jerk
L	=	left หรือ lumbar cord <b>แล้วแต่กรณี</b>
LH	=	luteinizing hormone
LMN	=	lower motor neuron
LR	=	lateral rectus muscle

MCH	=	mean corpuscular haemoglobin
MCHC	=	mean corpuscular haemoglobin concentration
MCV	=	mean corpuscular volume
mOsm	=	milliOsmole
MR	=	medial rectus muscle
NS	=	nervous system
NSAID	=	non-steroidal inflammatory drug
OP	=	opening pressure
Osm	=	osmolarity
P	=	plantar response
PCR	=	polymerase chain reaction
PCV	=	packed cell volume
PP	=	pin prick
PT	=	prothrombin time
PTT	=	partial thromboplastin time
Quad	=	quadriceps
R	=	right
RF	=	rheumatoid factor
RUL	=	right upper lobe
SIADH	=	syndrome of inappropriate secretion of antidiuretic hormone
SLE	=	systemic lupus erythematosus
SGOT	=	serum glutamic oxaloacetic transaminase หรือ aspartate transaminase (AST)
SGPT	=	serum glutamic pyruvic transaminase หรือ alanine transaminase (ALT)
SJ	=	supinator jerk
T	=	temperature หรือ thoracic cord แล้วแต่กรณี
TP	=	total protein
TJ	=	triceps jerk
TT	=	thrombin time
TVR	=	tactile vocal resonance
VA	=	visual acuity

VS = vibration sense
